

Japanese No.1 Brand  
MS. SHREDDER

# MS. SHREDDER ID431MC

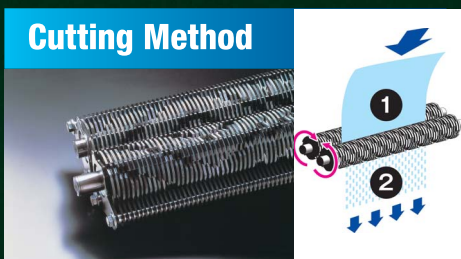

A Leader In Document & Data Destruction Equipment

Maximum  
shredding capacity  
**150**  
sheets/min\*

Shredding  
Capacity  
**12**  
sheets\*

\*A4 size, 64g/m<sup>2</sup>

## Cutting Method

## Cross Cut

To be cut length and width at the one time, a cutter can be managed with one step. It excels in cost performance. Moreover, the size of the cutter built into an axis has realized by the minimum cut formula of 1-mm width.

Ultimate  
High Security

Shreds to tiny 1.0 x 5.0 mm particles, making document replication infinitely impossible. This model is used also by US government agencies.

### Automatic Power Off

Power shuts down automatically after 5 minutes of idle operation, cutting standby power consumption to zero watts.

### Fan Press

A rotating fan presses shredded paper and levels it evenly in the bin. This mechanical function minimizes manual operation.

## MS.SHREDDER ID431MC

Maximum shredding capacity

**12** sheets\*

Shredding Speed

**150** sheets\*/min.

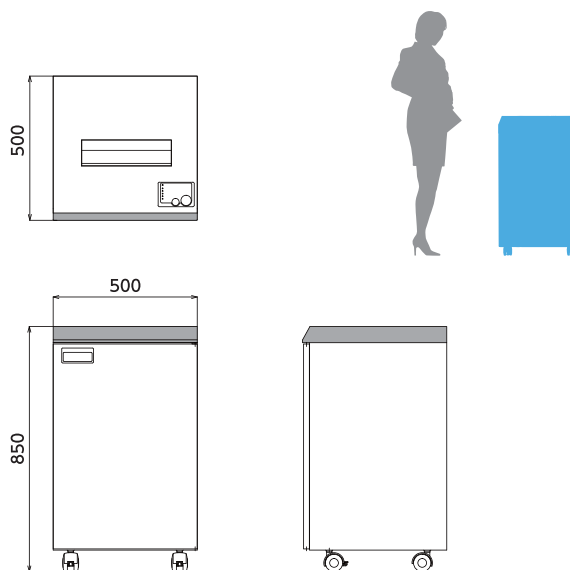

Shred Type	Cross Cut
Security Level (DIN 66399)	Level P-7
Shredding Size (mm)	1.0 x 5.0 (5 mm <sup>2</sup> )
Feeding width	310 mm
Bin Capacity	2800 sheets*
Voltage	220-240 V
Power Consumption	1375-800 W
Dimensions (WxDxH)	500x500x850 mm
Weight	77 kg

\*A4 size, 64g/ m<sup>2</sup>

**Cross Cut** 1.0 x 5.0 (5 mm<sup>2</sup>)

### Dimensions

W500xD500xH850 mm
