

Japanese No.1 Brand  
MS.SHREDDER

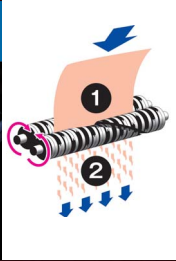

# MS.SHREDDER MSX-F65

A Leader In Document & Data Destruction Equipment

Maximum  
shredding capacity  
**500**  
sheets/min\*

Shredding  
Capacity  
**65**  
sheets\*

\*A4 size, 64g/m<sup>2</sup>

## Power Cross Cut

It good for big amount of feedings, documents can be disposed of powerfully quickly. Waste becomes compressed more up to many paper amount to put in. It would be used power from a motor efficiently, without waste blocked between cutters, according to the cutter which hollowed cylindrical steel.

From Japan's top shredder brand  
to the world's top shredder brand.

High  
Power

This model can take 65 sheets at once and can shred  
media such as CDs and DVDs, as well as credit cards.

Gradation lamp

The "Gradation Lamp" changes colors gradually to notify the user of paper feeding capacity level. This prevents overfeeding that causes paper jams.

Automatic Power Off

Power shuts down automatically after 5 minutes of idle operation, cutting standby power consumption to zero watts.

Fan Press

A rotating fan presses shredded paper and levels it evenly in the bin. This mechanical function minimizes manual operation.

MS SHREDDER  
**MSX-F65**

Maximum shredding capacity

**65** sheets\*

Shredding Speed

**500** sheets\*/min.

Shred Type	Power Cross Cut
Security Level (DIN 66399)	Level P-3
Shredding Size (mm)	3.9 x 45.0 (175.5 mm <sup>2</sup> )
Feeding width	310 mm
Bin Capacity	2800 sheets *
Voltage	220-240 V
Power Consumption	1575 - 720 W
Dimensions (W×D×H)	500×530×943 mm
Weight	89 kg

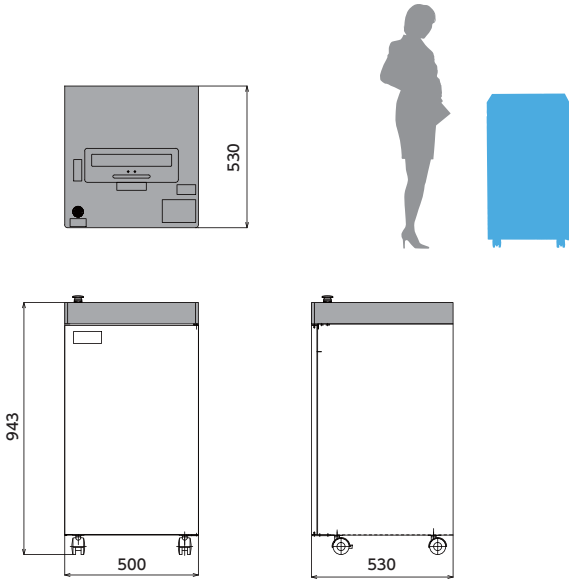

\*A4 size, 64g/ m<sup>2</sup>
