

Japanese No.1 Brand

MS.SHREDDER

MS SHREDDER V-F31CFKII

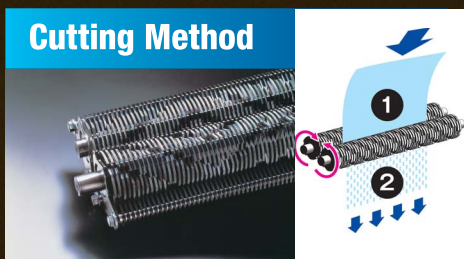

A Leader In Document & Data Destruction Equipment

Maximum
shredding capacity
300
sheets/min*

Shredding
Capacity
25
sheets*

*A4 size, 64g/m²

Cutting Method

Cross Cut

To be cut length and width at the one time, a cutter can be managed with one step. It excels in cost performance. Moreover, the size of the cutter built into an axis has realized by the minimum cut formula of 1-mm width.

Reasonable
& High
Performance

This model has excellent cost performance, with the capability
to take 25 sheets at once and to shred 300 sheets in one minute.

Automatic Power Off

Power shuts down automatically after 5 minutes of idle operation, cutting standby power consumption to zero watts.

Fan Press

A rotating fan presses shredded paper and levels it evenly in the bin. This mechanical function minimizes manual operation.

MS. SHREDDER V-F31CFKII

Maximum shredding capacity

25 sheets*

Shredding Speed

300 sheets*/min.

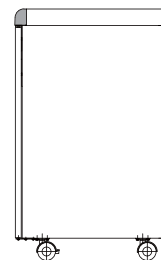

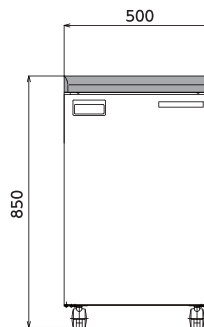

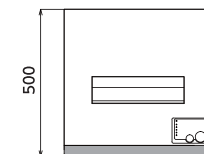

Shred Type	Cross Cut
Security Level (DIN 66399)	Level P-4
Shredding Size (mm)	2.5 x 30 (75mm ²)
Feeding width	310 mm
Bin Capacity	2500 sheets*
Voltage	220-240 V
Power Consumption	1260-730 W
Dimensions (W×D×H)	500×500×850 mm
Weight	76.5kg

*A4 size, 64g/ m²

Cross Cut 2.5 x 30 (75mm²)

Dimensions

W500×D500×H850 mm
